

Strategic 2018-2023 Planning

Mission

Réseau Santé en français au Nunavut (RÉSEFAN) is a non-profit organization dedicated to the health of Francophones in Nunavut. It accomplishes its mission by promoting health and well-being and supports access to health services adapted to the language and cultural diversity of Nunavut's Francophone population.

Vision

RÉSEFAN is a recognized leader that is engaged in the community. Therefore, it is a partner of choice for the development and implementation of structuring initiatives in healthcare, both at the territorial and national levels.

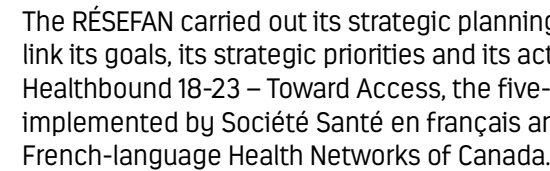

Values

- > **Respect:** through consultation, listening and inclusion.
- > **Leadership:** through innovation and vitality.
- > **Equality** for all Nunavummiut.

Strategic Statement

RÉSEFAN is considered an expert in health care accessibility in its language through the implementation of innovative solutions. It is also a community leader through its dynamic partnerships and initiatives that promote health and well-being for Francophones in Nunavut.

The RÉSEFAN carried out its strategic planning to link its goals, its strategic priorities and its actions to Healthbound 18-23 – Toward Access, the five-year program implemented by Société Santé en français and the 16 French-language Health Networks of Canada.

Goals

RÉSEFAN's goals are to :

- 1) Contribute to the planning of health care and social services in French and the implementation of Nunavut's Official Languages Act in this area;
- 2) Define and implement strategic guidelines related to well-being and health that are integrated into Nunavut's social and multicultural reality;
- 3) Promote French-language health care services in Nunavut;
- 4) Promote health and well-being among Francophones in Nunavut;
- 5) Manage grants and funds received from a variety of sources including revenue generated by the organization's various activities; and
- 6) Manage the physical facilities and equipment necessary to implement its programs and activities.

Strategic Priorities

1) Innovative Solutions:

RÉSEFAN provides support during the implementation of innovative solutions to promote access to French-language health care:

- Telemedicine;
- Recruitment, engagement and development of human resources: welcoming community, internships, language training;
- Adaptation and implementation of good practices and evidence-based solutions, including those developed by the Société Santé en français and other French Language Health Networks.

2) Promoting Health and Well-being:

RÉSEFAN participates in initiatives to promote health and well-being, particularly in the following sectors:

- Mental health;
- Youth health.

3) Partnerships and Collaborations:

RÉSEFAN forms partnerships and collaborations backed by clear and effective communication

- Partnerships and collaborations with key stakeholders in the area:
 - Policy-makers and administrators from the Department of Health;
 - Health care professionals;
 - Training institutions;
 - Community members;
 - Other francophone organizations in the area;
 - Local community organizations (Inuit or other);
 - SSF and other French Language Health Networks.
- Clear and effective communication:
 - Based on a communications plan that targets five types of partners;
 - Special attention will be given to the use of social media;
 - A communications effort will be made regarding the active offer.
